the disappoitment and gloom that is hovering like goblins around the enthusiastic and hard workers for single statehood is equied only by the broodings of us Choctaws and Chickasawa over the adverse opinion or the enpreme Court in the "Leased District" case, We received a message from Capt. Standley last Tuesday confirming the newspaper reports on the case. There have been many air castles floatfar and many calculations made ou "When I get my Leased District money" by us Judians. But such is life, and as the poet has

"Into each life come rain must fall. Some days must be dark and dreary."

This is a dreary ending to our long cherished hopes.-Indian Citizen.

Lo! the poor Indian, is always auticipating "when my ship comes in," and never making any provision to help himself. He has looked for his lease money, and now he is waiting patiently for his divvy on town lots, and he will continue to wait for the roylaties, that will roll in forever, but he never expects a share of the permit or license tax that goes to the boodlers, and of which poor Lo never sees a nickel. Cut off the Indian's expectations and they will be willing for single or double statehood and to get down to honest labor and make a living.

The recent decision of the secretary of the interior in regard to improving vacant lots in the Territory towns is very far reaching and will give an impetus to building and improvement. The sec retary holds that owners of vacant lots in towns may improve the same up to the time of apm ssion, and that all valuable and scheme substantial improvements placed on town property up to the time of such appraisement shall entitle the holder to purchase title at 50 per cent of the appraised value. Heretofore all building and improvement has ceased as the prior right of phreham even. 30.63% per agent of the appraisadten in improve them is wells for the late of the beat and may make will John Suppose Calcinorar will consult the to-fur-
